After taking a turn on the pro circuit in the 1950's, Frank Thiessen returned to his home in Kern County to teach and coach tennis at Wasco High School and Bakersfield Christian High School for over 50 years. We honor his commitment to promoting and developing junior tennis players throughout Kern County

The Kern Community Tennis Association (KCTA) is a non-profit organization established in 1965 to coordinate and promote tennis interest and activities in Kern County. Our programs assist high school team players (equipment and drills) and younger children through programs at the Boys and Girls Club and the Police Activities League. This tournament has become a key fundraiser for KCTA. Your participation and donations make our efforts successful.
